OFFICE OF PETITIONS

REQUEST FOR RECONSIDERATION OF PETITION UNDER 37 C.F.R. § 1.47(b)

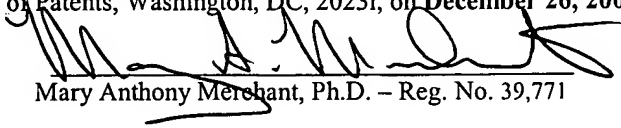

Commissioner of Patents & Trademarks
 Washington, DC 20231

Sir:

Applicants request the reconsideration of the Petition under 37 C.F.R. §1.47(b), filed October 8, 2002, for the above-referenced application. Applicants herein provide evidence of that the uncooperative co-inventors received the application papers (specification, claims, drawings and Declaration and Power of Attorney document); an acceptable Declaration in compliance with 35 U.S.C. §§ 115 and 116; and a showing that such action is required to prevent irreparable damages.

The two co-inventors, Isabelle Guyon and Jason Weston, refuse to sign documents relating to the filing of this application. BIOwulf Technologies, LLC., (also known as BIOwulf, LLC), and the Attorneys of Record have used diligent efforts in communicating with co-inventors Isabelle Guyon and Jason Weston. Both co-inventors have

I hereby certify that this correspondence is being deposited with the United States Postal Service as Express Mail Label No. EL 889242475 in an envelope addressed to Commissioner of Patents, Washington, DC, 20231, on December 26, 2002.

 Mary Anthony Merchant, Ph.D. - Reg. No. 39,771

refused to cooperate and continue to refuse to cooperate in completing the documents necessary to complete the filing of the above-referenced application.

The co-inventors were employees of BIOwulf Technologies, LLC., at the time the inventions described in this application were invented and at the time the Application was filed. The co-inventors assigned, to BIOwulf Technologies, Inc., the invention relating to this application, which is disclosed in the provisional applications to which this application claims priority. Furthermore, in assigning the applications to BIOwulf Technologies, Inc., Isabelle Guyon and Jason Weston agreed to "sign all lawful papers, execute all nonprovisional applications and other applications, make all assignments and rightful oaths, and generally do everything possible to aid BIOwulf Technologies, LLC, its successors, assigns, and nominees, to obtain and enforce proper protection for all said inventions and improvements in all countries throughout the world."

The supplemental declaration of Janina A. Malone, Attorney of Record, and the declaration of Lesley Andrews, paralegal, provide evidence of providing the applications to the co-inventors and the attempts to contact Isabelle Guyon and Jason Weston, and are included with this Request for Reconsideration, along with Exhibits E, O, S, P, M, T, R and I.

The application papers (specification, claims, drawings and Declaration and Power of Attorney document) were sent to both co-inventors. In accordance with our normal and regular procedure, a copy of the above-referenced application, as filed, which includes the specification, claims, and drawings, was sent to BIOwulf Technologies, LLC, for transmission to the co-inventors. Once a serial number was received from the U.S. Patent and Trademark Office, the Declaration and Power of Attorney documents were sent under separate cover to BIOwulf Technologies, LLC for transmission to the co-inventors. Both the application and the Declaration and Power of Attorney documents were transmitted to Jason

LLC. As evidenced by Isabelle Guyon's statements in Exhibit I, she received the application and Declaration and Power of Attorney document and has refused to execute the Declaration and Power of Attorney document. We know that Isabelle Guyon received the application and the Declaration and Power of Attorney document, but because we have never received any further communications from Jason Weston, we can only assume that the document and application that were transmitted in our regular and normal manner to Jason Weston, were received by Jason Weston. We did not receive notification from Marge Webber of any difficulties, such as an email rebound message, in contacting Jason Weston. As stated in the Declaration of Lesley Andrew, Jason Weston signed for the Federal Express package containing the corresponding international application for the above-referenced U.S. application. The specification, drawings and claims of the international application and the U.S. application are identical. Therefore, both Jason Weston and Isabelle Guyon have received copies of the above-referenced application as well as the Declaration and Power of Attorney documents requiring their signatures.

Isabelle Guyon has expressly refused to execute the Declaration and Power of Attorney document. We have received no communication from Jason Weston even though he has been repeatedly contacted. Based on his signature for the Federal Express package, we know that we were sending correspondence to his correct address.

As stated in the Declaration of Stephen Barnhill, the failure of the U.S. Patent and Trademark Office to grant a filing date for and examine the above-referenced application will cause irreparable damage to BIOwulf Technologies, LLC., in that BIOwulf Technologies, LLC., will not be able to preserve the patent rights for an invention arising from research that the company conducted and funded.

BIOwulf Technologies, LLC., and Attorneys of Record have repeatedly contacted Isabelle Guyon and Jason Weston. Isabelle Guyon and Jason Weston are not

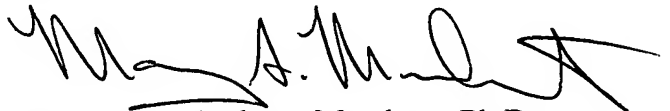

responding to communications sent to them by various methods, and have failed to execute documents necessary for the filing of the above-referenced patent application. Therefore, BIOwulf Technologies, LLC., requests that the Petition to declare Isabelle Guyon and Jason Weston uncooperative inventors be reconsidered and granted so that the rights in the invention held by BIOwulf Technologies, LLC., will be maintained, and so that the patent application can proceed to examination by the U.S. Patent and Trademark Office.

Included with this Request for Reconsideration of the Petition is a Declaration and Power of Attorney document executed by Stephen Barnhill, President of BIOwulf Technologies, LLC.

Should any further fees be required for this reconsideration, please charge them to the Deposit Account 11-0855.

Respectfully submitted,

KILPATRICK STOCKTON LLP

DECLARATION OF LESLEY ANDREW

Assistant Commissioner for Patents
Washington, DC 20231

Sir:

I, Lesley Andrew, having first-hand knowledge of the facts recited herein,
declare as follows:

1. I am currently a paralegal with Kilpatrick Stockton LLP.
2. Jason Weston and Isabelle Guyon are both named as a joint inventors
in the above-referenced patent application.
3. On May 13, 2002, I received an e-mail, per my request, from Marge
Webber at BIOwulf Technologies, LLC providing me with the last known addresses
for Jason Weston and Isabelle Guyon. A copy of the e-mail is attached as Exhibit
“E”.
4. On May 13, 2002, an Appointment of Agent for the related
international patent application and a copy of the international patent application,
which is identical in content to the above-referenced U.S. Application, was sent to
Jason Weston via Federal Express International Priority (Tracking No. 7905 2433
9279) at 20 Burhill Way, St. Leonards on Sea, Sussex, TN380XP, United Kingdom.
The envelope contained a return Federal Express envelope for the return of the

executed Appointment of Agent. A copy of the Federal Express Bill Slip is attached as Exhibit "O".

5. On May 13, 2002, an e-mail was sent to Jason Weston notifying him that the Appointment of Agent and a copy of the related patent application was being sent to him via Federal Express International Priority. A copy of the e-mail is attached as Exhibit "S".

6. On May 15, 2002, Jason Weston received the Appointment of Agent and a copy of the related international patent application via Federal Express International Priority. A copy of the Federal Express shipment e-mail confirmation is attached as Exhibit "P".

7. On August 2, 2002, an e-mail was sent to Marge Webber at BIOwulf Technologies, LLC requesting a current e-mail address for Jason Weston. A copy of the e-mail including Ms. Webber's response is attached as Exhibit "M".

8. On September 24, 2002, an e-mail was sent to Jason Weston notifying him that our office had not received the Appointment of Agent and requesting him to sign and date the document. A copy of the e-mail is attached as Exhibit "T".

The undersigned declares further that all statements made herein of her own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine, or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of any patent issuing on this application.

SUPPLEMENTAL DECLARATION OF JANINA A. MALONE

Assistant Commissioner for Patents
Washington, DC 20231

Sir:

I, Janina A. Malone, having first-hand knowledge of the facts recited herein, declare as follows:

1. It was our standard and usual practice to transmit a filed patent application to the corporate office of BIOwulf Technologies, LLC and for BIOwulf Technologies, LLC, to transmit the application to the inventors. (See Exhibit R)

2. As shown in Exhibit I, the application and the Declaration and Power of Attorney were transmitted to Jason Weston and Isabelle Guyon by Marge Webber, a former employee of BIOwulf Technologies, LLC.

3. In Exhibit I, Isabelle Guyon indicated that she had received and read the application.

4. On June 3, 2002, Isabelle Guyon responded to the request to execute the Declaration and Power of Attorney sent in Exhibit H by electronic mail, indicating receipt of the Declaration and Power of Attorney and refusing to execute the Declaration and Power of Attorney. (See Exhibit I)

5. I have not received any communication from Jason Weston.

6. Neither Isabelle Guyon nor Jason Weston have returned the Declaration and Power of Attorney to Applicants' representative.

Supplemental Declaration of Janina A. Malone
Serial No. 10/057,849

Dear Tim:

We mailed the referenced patent application to the U.S. Patent & Trademark Office on January 24, 2002, using the Express Mail filing procedure authorized by the Patent Office.

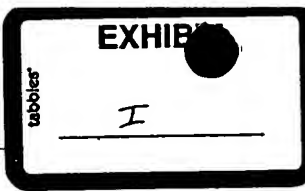

With the Express Mail filing, the date of mailing becomes the actual filing date for this patent application. Accordingly, the terms "patent pending" or "patent applied for" now apply to this invention.

The Patent & Trademark Office will send us an official filing receipt for this patent application in a few weeks, and we will then notify you. Meanwhile, we are enclosing a copy of the application as filed.

Cordially yours,

Janina A. Malone

Re: Patent application "Method of Identifying Patterns in Biological Systems and Uses Thereof",
Attorney docket no: 02331-0161 (42286-267669)

June 3, 2002

Dear Marge,

Thank you for your mail. After reviewing the document that you are asking me to sign and the heavy patent application, I have the following comments:

- 1) As per the declaration of power of attorney, I have the "duty of candor" to disclose all I know and not make wrong claims. As it turns out, I know for sure that we cannot make claim 1, as there was prior art. The other claims would be fine, except that I do not really understand claim 5.
- 2) In the description of the invention, everything up to page 38 has not been drawn from work I have done, and I do not think it was drawn from Jason's work either. I cannot endorse the validity and certainly not authorship of that work.
- 3) There are a number of patent applications referenced to by numbers of which I do not have a record. I need to be sent the titles, authors, abstracts and claims of these patents together with their filing number (not a box of papers with all the text please) so that I know what they are referring to.
- 4) For the rest, I can certainly not claim that I have reviewed it thoroughly enough to sign the declaration of power of attorney the way it is phrased and certainly would not want to risk fine or imprisonment. This is an enormous amount of work. I got a copy only end of May with just a few day's notice to sign the first appointment document I received (which I did sign).

As per my contract and also as I feel is my duty, I have obligation to help you. However, I need to get notice soon enough that I have enough time to review the material you send me. I should request 6 weeks to review the filings that you send me. At the time I receive the proposed filing document, I would like to get also ALL the documents I will have to sign so that I can also review them and make sure that I comply with the law requirements.

Also as per my contract, the company should pay me for my assistance my standard hourly rate and indemnize me with \$100 per patent filed. Since the company owes me already \$507.23 in unpaid expenses and \$5700 in salaries, I should require to be paid in advance.

Thank you very much in advance.
Best regards,

Isabelle Guyon

file the response is so close, I am using this means to get this to you for your review and signature. Would it be possible for you to fax your signature page directly to them at (404) 541-3290 and follow this with sending the originals to: Kilpatrick Stockton, Attn: Janina Malone, 1100 Peachtree Street, Suite 2800, Atlanta, GA 30309. And I hate to add to the burden, but if you would also fax it to me (for my records) at 912-691-2757, I would really appreciate it! Thanks for your help. Marge

Marge: I am attaching the two documents. As we discussed on the phone, the Response to Missing Parts due date is June 8th. Since June 8 is a Saturday, we have until the 10th to file the Declaration and Power of Attorney as part of the Response. If you have any questions please give me or Janina a call. I will forward the originals by mail. Christy Flagler
